

Prakash Agrahari

JOB OBJECTIVE

To leverage deep expertise in **front-end engineering and MERN Stack Development** to drive **Scalable Application Architecture, Performance Optimization, and Enterprise-Grade Solution Delivery**, while contributing strategically to product innovation and technical excellence in high-impact roles.

PROFILE SUMMARY

- ➔ Result-oriented **Frontend & Full Stack (MERN) Developer** with 5+ years of experience building scalable, high-performance web applications across enterprise environments.
- ➔ Strong expertise in **modern frontend engineering (React.js)** combined with robust backend development using **Node.js, Express, and MongoDB**, enabling end-to-end solution ownership.
- ➔ Proven capability in designing **responsive, performant UI architectures** alongside scalable backend systems, ensuring seamless user experience and system reliability.
- ➔ Demonstrated impact in **performance optimization**, reducing application load time by 40% through lazy loading and advanced frontend optimization techniques.
- ➔ Hands-on experience in **full-stack development**, including API design & integration, authentication systems, and modular architecture.
- ➔ Strong command over **state management frameworks such as Redux Toolkit and RTK Query**, enabling efficient data handling and API caching.
- ➔ Experience working with global clients such as **Guardian India Operations Pvt. Ltd. and Kone Elevators**, delivering **business-critical solutions**.
- ➔ Displayed ability to build and scale applications from scratch, including **API lifecycle management platforms and enterprise utilities**.
- ➔ Skilled at collaborating with cross-functional teams to deliver **clean, maintainable, and production-grade codebases**.

WORK EXPERIENCE

Associate IT Consultant

ITC Infotech | Feb 2024 – Present | Gurugram

- ➔ Delivered enterprise-level solutions for **Guardian India Operations Pvt. Ltd.**, contributing to the **Absence Management system** by developing new features and enhancing platform stability.
- ➔ Led **application performance optimization initiatives**, addressing caching issues and improving overall system efficiency.
- ➔ Executed advanced **performance tuning techniques**, resulting in improved responsiveness and scalability.
- ➔ Contributed to multiple product ecosystems for **Kone Elevators**, including **Clinica and Planner platforms**.
- ➔ Designed and developed an **escalator survey form module** for Clinica, enabling structured data capture and **root cause analysis of malfunctioning escalators**.
- ➔ Integrated **Salesforce systems** to streamline **lead management and tendering workflows**.
- ➔ Developed and maintained **Site Survey API middleware**, ensuring seamless data flow and backend integration for Planner product.

Software Development Engineer (SDE 2)

Yappes Technologies | Jun 2023 – Dec 2023 | Mysore

- ➔ Architected and developed a **custom API Lifecycle Management platform** from scratch.
- ➔ Built reusable utilities and modular components to enhance **code reusability and maintainability**.
- ➔ Implemented **encryption and decryption mechanisms** for secure handling of sensitive data such as credentials.
- ➔ Strengthened backend efficiency and ensured scalable integration frameworks.

EDUCATION

- 2018
B.Tech. in Electronics & Communications
Lovely Professional University
Minor: Web Development
- 2013
12th
Jwala Devi Saraswati Vidya Mandir
- 2011
10th
Laxmi Narayan Inter college

CORE COMPETENCIES

- ➔ Front-End Architecture & Design
- ➔ MERN Stack Development
- ➔ Application Performance Optimization
- ➔ Scalable System Design
- ➔ API Development & Integration
- ➔ State Management (Redux / RTK Query)
- ➔ Enterprise Application Development
- ➔ Cross-Functional Collaboration
- ➔ Code Quality & Maintainability

TECHNICAL SKILLS

- ➔ **Languages & Core Technologies:** HTML5, CSS3, JavaScript (ES6+), Node.js
- ➔ **Frameworks & Libraries:** React.js, Next.js, Ionic React, Redux, Redux Toolkit (RTK), RTK Query, React Query, React Router, Axios

- **UI & Styling:** Tailwind CSS, Material UI, Ant Design, Mantine UI, Chakra UI
- **Tools & Platforms:** Git, Webpack, Babel
- **Backend & Database:** Express.js, MongoDB

PERSONAL DETAILS

- Date of Birth: 10th September 1996
- Languages Known: English & Hindi
- Address: Prayagraj, UP

Frontend Developer

VisionIndia Software Export Ltd. | Dec 2022 – Apr 2023 | Pune

- Developed interactive applications including **game-based interfaces** such as **Roulette using React.js**.
- Designed **wireframes and UI structures** aligned with client requirements.
- Delivered **30+ user-facing features**, ensuring high usability and responsiveness.

Frontend Developer

Torinit Consulting | Jun 2022 – Nov 2022 | Pune

- Engineered **30+ front-end features** using React.js with a focus on usability and performance.
- Developed responsive layouts and UI structures aligned with business requirements.
- Ensured **100% client satisfaction** through quality delivery and design accuracy.

Frontend Developer

Ask-Fast Pvt. Ltd. | Dec 2021 – May 2022 | Bangalore

- Developed **secure authentication systems**, including protected route components.
- Implemented **Lazy Loading techniques**, improving application performance by **40%**.
- Enhanced application scalability and user experience.

React JS Developer

Riser Techub Pvt. Ltd. | Oct 2021 – Dec 2021 | Pune

- Developed interactive applications and UI features using React.js.
- Delivered **30+ user-facing features** aligned with business requirements.
- Ensured responsive and scalable UI implementations.

Software Engineer

Rayabhari Technologies Pvt. Ltd. | Jan 2021 – Oct 2021 | Bangalore

- Developed front-end applications including **interactive gaming modules**.
- Created wireframes and translated business requirements into functional UI components.
- Delivered scalable front-end solutions with consistent performance.

PERSONAL PROJECTS

Note-Taking Application | [Link](#)

- Developed a full-stack application supporting **CRUD operations, archiving, pinning, and UI customization**.
- Built using **React, TypeScript, Node.js, Express, MongoDB**.
- Implemented **Redux Toolkit for state management** and modern UI frameworks for enhanced UX.

Component Library | [Link](#)

- Designed a reusable **UI component framework** for rapid front-end development.
- Enabled consistent design patterns and faster UI implementation.

E-commerce Application | [Link](#)

- Developed a feature-rich platform with **wishlist, filtering, search, and cart functionalities**.
- Delivered seamless and intuitive shopping experience through optimized UI/UX design.
